

HOMESCHOOL ED-VENTURES

WHAT IS HOMESCHOOL ED-VENTURES?

Homeschool Ed-ventures is a science education program designed for homeschooled children who enjoy hands-on learning and outdoor adventure. Each small class of students engages in cooperative, inquiry-based learning, guided by professionally trained educators.

The majority of our program takes place outdoors; taking advantage of the many habitats at Riveredge throughout the seasons. Children develop a strong sense of their place in the natural world and a sense of belonging to both Riveredge and their homeschool community.

CONTINUED LEARNING & RELATIONSHIP BUILDING

Each class has its own secure website that features class highlights, photos, and information for your child(ren) to assist in their learning journey at home. In addition, Riveredge offers a Facebook group for currently registered families, and offers periodic family-based educational programs throughout the year.
